

DJ Franky

DJ PROFILE

DJ Franky is currently one of Jhb's premium sons of the DJ box-rocking-generation and a much sought after name to complete any scorching hot line-up at gigs around South Africa.

With almost ten years of experience in the DJ Industry, he has been widely acknowledged as one of the few top class DJ acts who transform what they do beyond merely just playing music into what most people and promoters refer to as an 'unforgettable PERFORMANCE'.

Specialising in various forms of house music, Franky's styles of DJing have evolved with the trends over the years yet also remained true to his over a decade long romance with the house music genre.

His uncanny ability to predict what the dance floor wants to hear NOW has seen him rip up the decks at the biggest clubs and events in all four corners of South Africa.

DJ Franky has four cd compilations to his belt, he mixed the "Classics" cd on the incredibly successful Soul Candi Volume 4 compilation released in September 2008, Electro Candi in 2009, SA House Charts in 2010 and DJ Franky Tonight in 2011.

That in itself is a natural progression for the young future legend as he is widely reknowned for not only making your body move but your soul dance to the music too.

Accurately put by a party animal in Durban after one of his notorious sets, "Whatever DJ Franky lets loose on the decks becomes a classic!".

DJ Franky also holds a 5 year long running residency on South Africa's most favourite Sunday night house music specialist show, MY HOUSE on 5FM, hosted by long time friend DJ Euphonik. Allow DJ Franky into your world.

Get to learn more about the maestro, from what songs are rocking his DJ set list, what gigs he's playing at that week, what's on his mind today and even which Playstation move he's just discovered!
